

VSB 215P

features:

- simple and reliable use
- compact size / weight
- clean powerful bass
- high SPL output
- built in wheels
- "top hat" mount
- hand crafted

The VSB215P is a compact, self powered, 2 x 15" subwoofer with a superb clean sound, surprising amount of punch and is very powerful in subsonic frequencies.

Simple trouble free use is assured as the internal UK built amplifier means no external processing and matched amplifier to driver reliability. The amplifier has a state of the art microprocessor that constantly monitors performance and safety preventing overheating or quality loss even in the most testing conditions. It is also deigned to have an additional VSB215 (unpowered) slaved to it with no loss of power. The "V" internal structure makes this box extremely strong and minimises the standing waves which cause booming in other designs. Its low weight means it only takes one person to load it in and out of trucks and venues. It is also small enough to be hidden under the stage in smaller venues.

It is designed for use in clubs and hire situations where its compact size and weight are key. There is a "top hat" for sub/pole/mid-high configurations and interlocking runners to facilitate secure stacking when used in multiples.

With a usable frequency range from 35Hz up to 200Hz a single VSB215P can produce a maximum continuous SPL of 130dB.

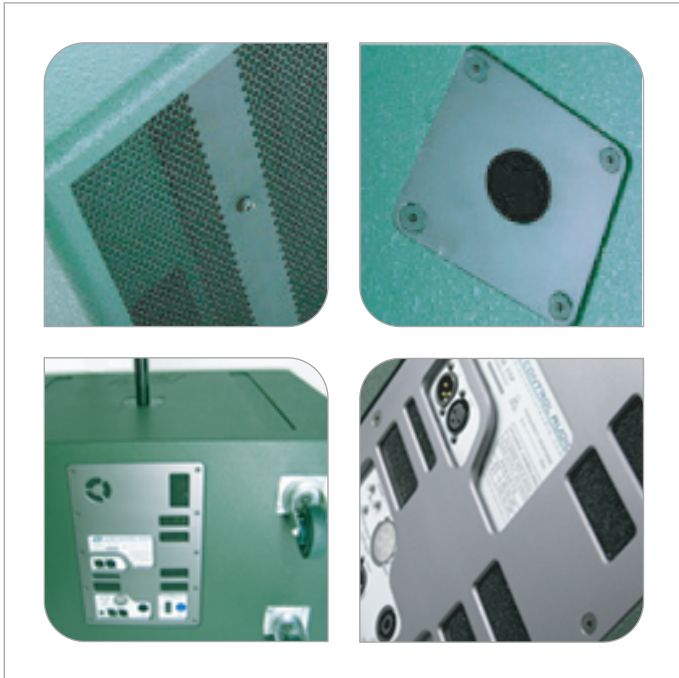

applications:

- indoor
- install / tour
- club and venue
- event and conferencing

permanent installations in:

- auditoriums
- theatres
- clubs and bars
- places of worship

specifications

Type	ACTIVE MEDIUM THROW SUBWOOFER	
Usable frequency range	35Hz - 200Hz +/- 3dB	
Driver	2 x 15" NEO / 4" voice coil	
Power	2 x 1000W	
Maximum SPL	130dB	
Internal Amplifier		
User Presets	PO 80Hz LPF	P1 120Hz LPF
Connections	Power 240/110	powercon
	Line Input	xlr
	Network	RS485
	Updates	USB
	Slave speaker output - Speakon NL4	
Weight	80kg	
Dimensions /mm	Height	530
	Width	925
	Depth	890
Construction	Hand crafted in birch ply. Durable green coating. Protective grill and transport wheels.
